

Region 3 GPRA Baseline RCRA Corrective Action Facility

U.S. Naval Academy

**194 King George Street
Annapolis, MD 21402
Congressional District 3
EPA ID #: MD0170022602
Last Updated 7/12/05**

Current Progress at the Site

Extensive progress has been made with the environmental investigation and remediation at the U.S. Naval Academy (USNA) at Annapolis, MD. The facility is under a RCRA Corrective Action Permit. USNA has completed the Verification Investigation and Phase I Environmental Investigation Report of the Areas Of Concern and Solid Waste Management Units. EPA and Maryland Department of the Environment (MDE) conditionally approved the report. USNA is implementing the Phase II Environmental Investigation Work Plan. The objective of the Phase II Environmental Investigation was to assess the ecological and sediment condition at the site. USNA has submitted this report, EPA has reviewed and commented on the report. EPA is awaiting USNA response to our comments.

Site Description

Located in Annapolis, MD, the facility operates the education and military training facility. In addition, the facility provides residential housing, motor pools, service station, space heating, incineration, storage, laundry facilities. The operation of these facilities resulted in the release of metals and organic contaminants into the environment.

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State.

Contaminants

The investigation has determined that the metals in the soil and sediments exceeded EPA levels of concern.

Community Interaction

All remedial actions have been advertised to provide public notice of the project. The facility has provided fact sheets to its local residents. No community responses have been noted.

Institutional Controls

No institutional controls are currently in place.
